2 Literacy Health Check

We have developed an innovative literacy diagnostic tool to assess where you and your team are positioned in their Literacy Teaching Practice and how effective your Literacy Approach is on student achievement. Together we will work out where your teachers are excelling, where they are growing and where they need some more support.

3 Book a Meeting

We will then put together a bespoke plan with you. We will help you decide on the right professional development for your needs. This plan will be on your terms and utilise your available resources. This could include:

- Year 0-3 Structured Literacy Approaches
 - Year 4-6 Literacy Programmes
 - Classroom resources
 - Assessment tools
 - Assessment for Learning
 - Literacy Progressions
 - Pedagogy (Science of Reading, Science of Learning)
- And more.

4 Impact Analysis

Evaluation is an essential part of our teacher practice, and it's important that we are constantly checking whether the teaching we do are having an impact on student achievement. We will check the efficacy of the PLD we have recommended through ongoing support, and review.
